Honor Grads Announce Careers In Medicine

By Sandi Hibbeln

Diane Wilkenson has been named NHS's Class of '75 valedictorian, while Kurt Andersen was named salutatorian.

Diane, who's grade point average is 4.3235, is planning a career in medicine. Late last month she was accepted in a combined premedical-medical program at University of Michigan, which gives a M.D. degree in six years.

Kurt Andersen

Diane never really thought about being valedictorian but, "Your grades are important for med school." Since she was a sophomore, Diane had been considering a job career in medicine, most likely a general practitioner.

She has been fairly active in girls athletics, including synchronized and competitive swimming, volleyball and manager of the girls Varsity Basketball team. Diane has also been in Forensics for 2 years and Honors Society 3 years.

Kurt Andersen with a grade point average of 4.275, plans to attend U. of M. next fall. His major field of study is "undeclared" but he may go into medicine.

Kurt wasn't really surprised by being announced salutatorian, "After my junior year

it was kind of obvious."

He has been very active in band; this including Pit, Pep and Marching bands and the Schoolcraft College Jazz ensemble. He has been a member of Honors Society 3 years and has served on Mustanger staff 2 years as business manager and advertising editor.

Kurt also enjoys skiing, sailing and biking.

See Honor Grads A Success

By Dana Fieldman

Yahoo! Student Council's Dogpatch Day was a success. Activities include class competition in hall decorating, pie eating and dressing up in farmer clothes. For a finale there was a Sadie Hawkins dance featuring "Rumor".

Freshman took first place in hall decorating with their many signs depicting carbon characters. Seniors, on the other hand, showed their true abilities by winning the pie eating contest with Dean Mitchell as their representative.

The dance ran from 8:30 until 11:30 in the High School gym and was hailed by all who attended.

Prom Etiquette

By Suzie Evans

With the Senior Prom coming up soon (May 30) we all want to be sure that everything goes right. Therefore, a correct code of etiquette is necessary. By memorizing these simple rules, you may be assured that you will be able to act correctly at all times.

People judge other people by what they see. Therefore, the visible impression you make is important because good grooming indicates character.

Always wear expensive clothes and find some way to get their cost into the conversation. However there is no point in having your clothes clean and odor free if YOU aren't.

Most of your teeth should be pleasant to look at.

If you have unsightly moles, warts or an unusually large nose, it is probably best not to go out at all.

A tuxedo must never be worn before six, so be sure your watch is right. If you arrive at your girls house for pictures before

six, hide outside in back of some bushes or a THICK tree until you are sure it's six o'clock.

Do not remove your clothes at a prom unless the others are doing so. Do not use your tales as a handkerchief.

Do not fight over who gets the most food.

If you are seated at a long table and want something passed to you, express yourself clearly. You can, for example, say, "Hey Down there...how about some pickles at this end." Or "Next on the potatoes."

If you smoke at the table and there are no ashtrays available, you may put your cigarettes out in the jello salad or the finger bowl.

Be sure to compliment the management on the nice service and meal. Never say anything negative. If you dislike the meal and the manager asks how you enjoyed dinner, simply say, "No Comment."

After a heavy meal please do not loosen your belt. Remember there is dancing afterwards.

Here's The Scoop

Mustanger Makes It

Who says the MUSTANGER is a crummy paper? At the First Annual High School Journalism Contest held recently at Schoolcraft College, the MUSTANGER placed in the top four in the "Best Newspaper" category. First place went to DIMENSIONS, Southfield-Lathrup High's school newspaper, while Thurston's INSIGHT pulled second. The Stevenson SPOTLIGHT and our own MUSTANGER earned honorable mention awards.

Host Families Needed

Bring the world into your home by welcoming a high school student from another country into your life. You may not be able to visit Argentina, Japan or Sweden, but you can bring America home to a young boy or girl from these or 28 other countries. Youth For Understanding International Student Exchange Program provides host families the opportunity to welcome a new friend into a new world, and to bring his world into yours. For information on summer exchange students, contact Mrs. James O'Day, 325 Park Place, Plymouth, Mich. Phone number: 453-4295.

VENA'S VIEWPOINT

Vena Hosler

"Ripping off" is a term that is becoming more and more popular. It has been picked up so easily but thought out so little.

How often have you heard someone say, "I sure ripped them off!" or "I ripped it off"? As they say it they are beaming from ear, to ear and actually proud of their achievement. But if they used the actual meaning of the words "ripping off", maybe they wouldn't feel so proud. After all no matter what you call it it's still the same.

Changing words do not change actions. "Ripping off" doesn't change anything you stole it.

Bookworms

In case you haven't heard, the Northville Public Library plans on changing their address. Apparently the cozy 'little' building on Wing Street just wasn't good enough, or large enough, for City Hall, and they've decided to make their home in the basement of the Northville Square. Of course, the rent will be much higher, but we all know who's paying for it. Isn't it amazing how, your money can be spent without your consent?

Thanks, Thanks, Thanks

One final word before I flee the MUSTANGER pages, never to return again--Thanks. Many thanks to the staff and my editors for a hard year of production, (which managed to be fun at times.) A special thanks to Mr. Redmond, for all his help and for putting up with me for this long and also Mr. Tarpinian for faithfully getting his column in before-deadline every time. To next years editors, and staff - Good Luck and Good News.

Letters To The Editor

Dear Editor,

It has become increasingly obvious over the stretch of 4 years that the MUSTANGER is a jock newspaper, run by jocks, edited by jocks and supervised by a jock. This situation is not representative of the school body as a whole.

The jock segment of the school is not in the majority. Why should a minority in-trest receive the majority of available, newspaper space? Why should an entire page out of an 8 page newspaper be set aside for the sole use of jocks, when the closest thing to an opposition viewpoint is a meager one third of a page with a list of concerts? It should be the responsibility of the staff to represent the entire school, not the jocks only. The jocks who run the paper will say, "If they don't like it, let them join

the staff and change it."

This statement is typical of jock mentality. No sane person would step into a pit of snakes. For a truly representative MUSTANGER staff, removal of the present supervision is a necessity. With the present situation it seems the only way to get a respectable grade in the journalism class is to display a large orange "N" on your chest or of course, have the correct last name. Installation of a supervisor with a least a minimal sense of justice, tolerance, and moderation would be a great improvement. In closing the MUSTANGER could become the SCHOOL paper not a "jock paper" by changing a few foolish and old---fashioned ideas.

Skeptics, Cynics and Nuts

By Sherry De Santis

Talons bared, skeptics, cynics and nuts alike line up prepared to tear it to shreds. Its members stand valiantly behind it defending it to the bitter end.

I am referring to the Report of the Warren Commission designed by the late President Johnson to investigate the assassination of President Kennedy. Once more, as in the past, its findings are being questioned in the form of TV talk shows and magazine articles with an insistence for a re-opening of the investigation that borders on the obnoxious.

Many feel it a useless, expensive waste of time. It's no use kicking a dead horse, as the saying goes. But this horse isn't legally dead, not yet. Not while we can still ask legitimate questions and not get legitimate answers.

A few of the questions being kicked around by critics of the Warren Commission, which get thrown right back at them:

1) Why were no police motorcycles stationed next to the Presidents limousine? No Secret-service agents flank-

ing it?

2) Why was Lee Harvey Oswald wanted 30 minutes before Officer Tippit was shot, the only murder he was charged with November 22, 1963.

3) One of the most disturbing questions; How was Jack Ruby able to get through supposedly barricaded entrances to shoot Lee Oswald in the basement of the Dallas City Jail that Sunday morning.

4) How do you explain away the death of every witness that was connected with the assassination? Fate? Coincidence? Conspiracy?

A release of the Zapruder film works to further nourish the seed of doubt already planted in my mind. There is evidence, namely that of the President's body being thrown violently backward in his seat suggesting shots from the front, as well as from the rear and a shadowy outline of one more assassin in the ever famous "grassy knoll." Was Oswald, a patsy shot to keep him from

talking? Why were certain witnesses neglected by the Commission, those whose testimonies contradicted its deductive conclusion? Do they actually expect us to believe their one bullet theory? One bullet passing through two men creating seven holes, escaping unscathed and losing only .10 milligrams of its original weight. What we don't need now are more questions, we need some answers and the best way to find them is by re-opening the investigation. NOW.

New Routine Ruins Life

By Nancy Anderson

Daylight Saving Time has ruined my entire life. Starting from morning, on April 29 I woke up to go to school in pitch black. It's been like that ever since.

When I get home, in my case at 2 PM, prior to Daylight Saving Time my schedule was General Hospital, One Life To Live, Match Game '75, and Tattle-tales. Now General Hospital begins at 3 PM and One Life To Live runs into Match Game '75. I'm now forced to choose between Richard Dawson and Joe Riley.

Daylight Saving Time disrupts everyone's routine and for no worthwhile purpose.

Since this is the last issue of the MUSTANGER for this year, I think it appropriate that we commend the adviser, Mr. Redmond, and the publications staff for the excellent job of providing a school newspaper which has been a vital, important publication of real meaning for our student readers.

The MUSTANGER is a "With-it, right-now, let's move ahead" publication which reflects youthful curiosity and restlessness. It has been hard hitting and interesting, covering what is significant and interesting, covering what is significant to today's young people. It has informed, through stories and photographs, all aspects of school life, and it also has included in-depth reports on issues of significance and interest often outside the school itself.

I believe that the school newspaper is a major element in creating good student moale, and in developing good school-community relations by helping both groups understand the activities and needs of the school as well as the interests and thinking of students.

I am certain that the MUSTANGER will continue to be an accurate, reliable publication.

The Happy Booker

By Sherry De Santis

Jaws A Real Bite!

According to Peter Benchley, the most horrifying way to die would be to be eaten alive. I must admit he has a point, I mean it's so, so, messy. However in Mr. Benchley's first attempt at writing, Jaws, he acts out his "fantasies" on paper which for some inexplicable reason end up as a book, and to further defy human explanation, a best-selling book and eeks no! A movie!

Amity, where the story takes place, is a small seacoast town terrorized by a great-white shark who swims along the shore beaches satisfying his gluttonous appetite by munching on the local inhabitants.

Of course it is sprinkled with the usual, dissatisfied wife's, lover's triangles, sex (of course, where would a bad novel be without it) and a totally expected and disappointing ending.

Centaur Nears Deadline

By Nancy Anderson

So what's happening with the Centaur? The annual literary magazine is nearing its completion and should be out around the end of May.

Writers, artists, teachers, and students have all lent their talents to this year's edition. The book

should be about sixty pages long and contain all NHS works.

Instead of sending the Centaur down to the Northville Record to be published, it is being printed right here at NHS in the Graphics Department.

This year the book will cost \$1.25 and can be bought from any English teacher or any student involved in taking creative writing

Girls Softball Off To Good Start

Donna Keen

Girls' Softball coach, Mary Minor says, "there's a possibility to take third in the league if we keep marching on."

The girls' softball team is doing surprisingly well this year. Their over all record now stands at 3-2, but their league record is 3-1.

The softball team has a really strong infield. Pat Brown, the pitcher has been doing a great job. Pat has six walks, and eleven strike outs so far. Last year Pat was only the relief

pitcher. This year however, Pat has played all but five innings. Becky Albus is strong at second base. Chris Suddendorf and Cathy Rich, both are freshmen and are doing very well.

There has been only one injury occurring on the team. Debbie Maguire, was sliding into home plate, when she damaged some tendons in her leg. Debbie will be out for the season.

Miss Minor stated, "If the injuries stay down, we have a possibility to take third if we keep marching on."

MANE LINES

Thomas Folino

If you're not a senior don't bother to read this. This column is for seniors, their final sports sendoff of the year.

Seniors as underclassmen you probably looked forward to "next" year and never really understood the empty glassy look in the eyes of a senior athlete after his last game. Now as seniors you know, you'll never wear the Orange and Black again, never play in front of the people you've lived with all your life.

I'm NOT talking about the people who had the potential but didn't have the self pride to hack it. The seniors I'm talking about are the dedicated ones, the ones who stuck it out even if they weren't regulars. These people gave a lot and were rewarded with self esteem and a personal satisfaction.

These athletes realized that you only go to High School once and those four years seem like one. For many jocks it is the last place they will play where they have a reputation and tradition to live up to.

Did I achieve my goals? Did I have a satisfying season? These were the questions you asked yourself. At that final game, match or meet you felt as though you swallowed an egg and your stomach had shattered. At that point you knew that there is no next year.

Hockey at NHS?

YES

By Lorianne Tuggle

At the beginning of this school year the Board of Education proposed to look into a school hockey team. They had a first meeting, and more boys showed up than they expected, so the board discontinued all thoughts. We must admit they tried it, but got out quickly.

Our school has a lot of guys who play hockey and would like to represent their school as a team.

Many schools seem to have enough money to have extra sports and clubs. Many schools have soccer, hockey, and horsebackriding clubs.

So if you guys want a hockey team bad enough you should visit the board office and see how far you get. GOOD LUCK... You'll need it.

NO

By Dave Sparing

Hockey, another varsity sport team? How many do you want? We already have nine teams, not including the girls teams and the JV's. I think with all those other sport teams NHS isn't altogether ready for a hockey team.

What about the expenditures? Just think of all that money going to hockey pucks, uniforms, shoulder pads and all the other equipment accessories. Also what about the ice rink? Where would the team play and how much would it cost to rent the rink?

I conclude my statement by saying--- "If the student body really wanted a hockey team we would of had one a long time ago."

Baseball

By Dana Fieldman

Northville's Varsity Baseball team has had it's ups and downs this season. Right now they post a 4/3 league record. Overall their record is 5/6.

In league competition they have come up against Plymouth Canton and Farmington Harrison, twice Walled Lake Western, Livonia Churchill and Waterford Mott.

John Boland, ace hurler, is credited with the two biggest wins of the season. He hurled the team into a 5-4 win over Plymouth Canton and a 5-2 victory over Walled Lake Western.

There are two weeks left in the season and if the team is hitting and fielding well they should finish thier season with a decent record.

Tennis

By Sarah Kunst

Coach Bob Simpson repeats his prediction "The Tennis Team will come out about .500." But spirit on the NHS Tennis Team contradicts this belief. As of the second week of May, the team league record stands at three wins, two losses. Players are shooting for a final record of six wins, two losses which assures them second place in the Western Six.

Seven wins, six losses is the overall record of the NHS Tennis Team this year.

NHS Tennis Team was successful against Plymouth Canton twice and once against Walled Lake Western. The two league losses suffered were against Livonia Churchill and Waterford Mott.

Track

By Mary O'Meara

Northville's Thinclads will be traveling to Livonia Churchill School today, May 21, to compete in the Western-Six League Meet. Field events are scheduled to begin at 4:00 p.m. and running events will follow at 6:00.

As Coach Ralph Redmond sees it, it'll be Churchill, Walled Lake Western, and Waterford Mott, in that order. Farmington Harrison, Plymouth Canton, and Northville will be fighting it out for fourth.

To be successful, the Thinclads will be relying on a few performers to do alot. Seniors Rob Foust, Denny Keegan, Doug Crisan, Larry Pink, Dave Harrison, and Bob Bloomhuff will be aiming for all-league titles.
